

Viridian Testimonial – Mike Cocco

Before our chapter was going to commit to joining the Viridian Non-Profit program, as chapter President I felt it was necessary to be the “test-case.”

Therefore, last year, I filled out the online form to choose to purchase my electric from Viridian, instead of the default provider. Since that time, a period of over 8 months, I have seen no difference in my electric service, PSE&G is still the utility company and handles all service calls as normal, and I have saved some money on my monthly electric bill!

The most important part--- choosing Viridian will help our chapter raise funds for our scholarships, that benefit local residents in the Northern NJ area!

Please join me today and Choose to Help our Chapter’s Scholarship Fund by Choosing Viridian.

If you have any questions at all about this, I would be happy to share my experience to ease your concerns, please email me at mikecocol@gmail.com.

Thank you,

Mike Cocco
Chapter President
